

Kubik

Stackable modular storage system

FURNITURE - MODULAR SYSTEMS - 2026

The system

One module. Many configurations.

One 400 mm module. Concealed magnets in every face, so any cube meets any other cube in any orientation. The furniture type is decided by how many you own and where you put them.

FOUR FUNCTIONS, ONE COMPONENT

01 Storage

02 Shelf

03 Side table

04 Stool

GROUPED

Vertical storage

3 modules

Table with stools

8 modules

Single module

400 x 400 x 400 mm

Adaptability

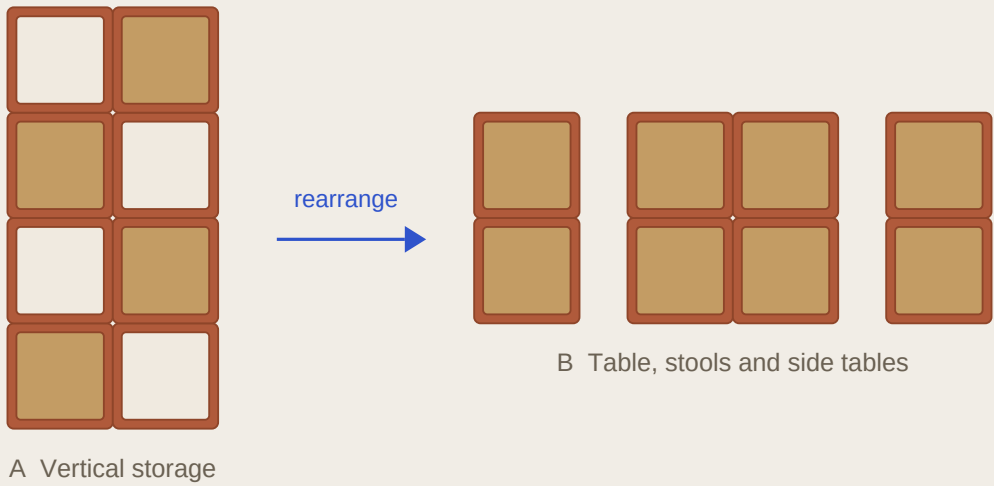

The same eight modules, two apartments. Nothing is bought, discarded or modified between the two arrangements - the cubes are simply taken apart and put back together somewhere else.

A **Stacked**
Storage and shelving against one wall

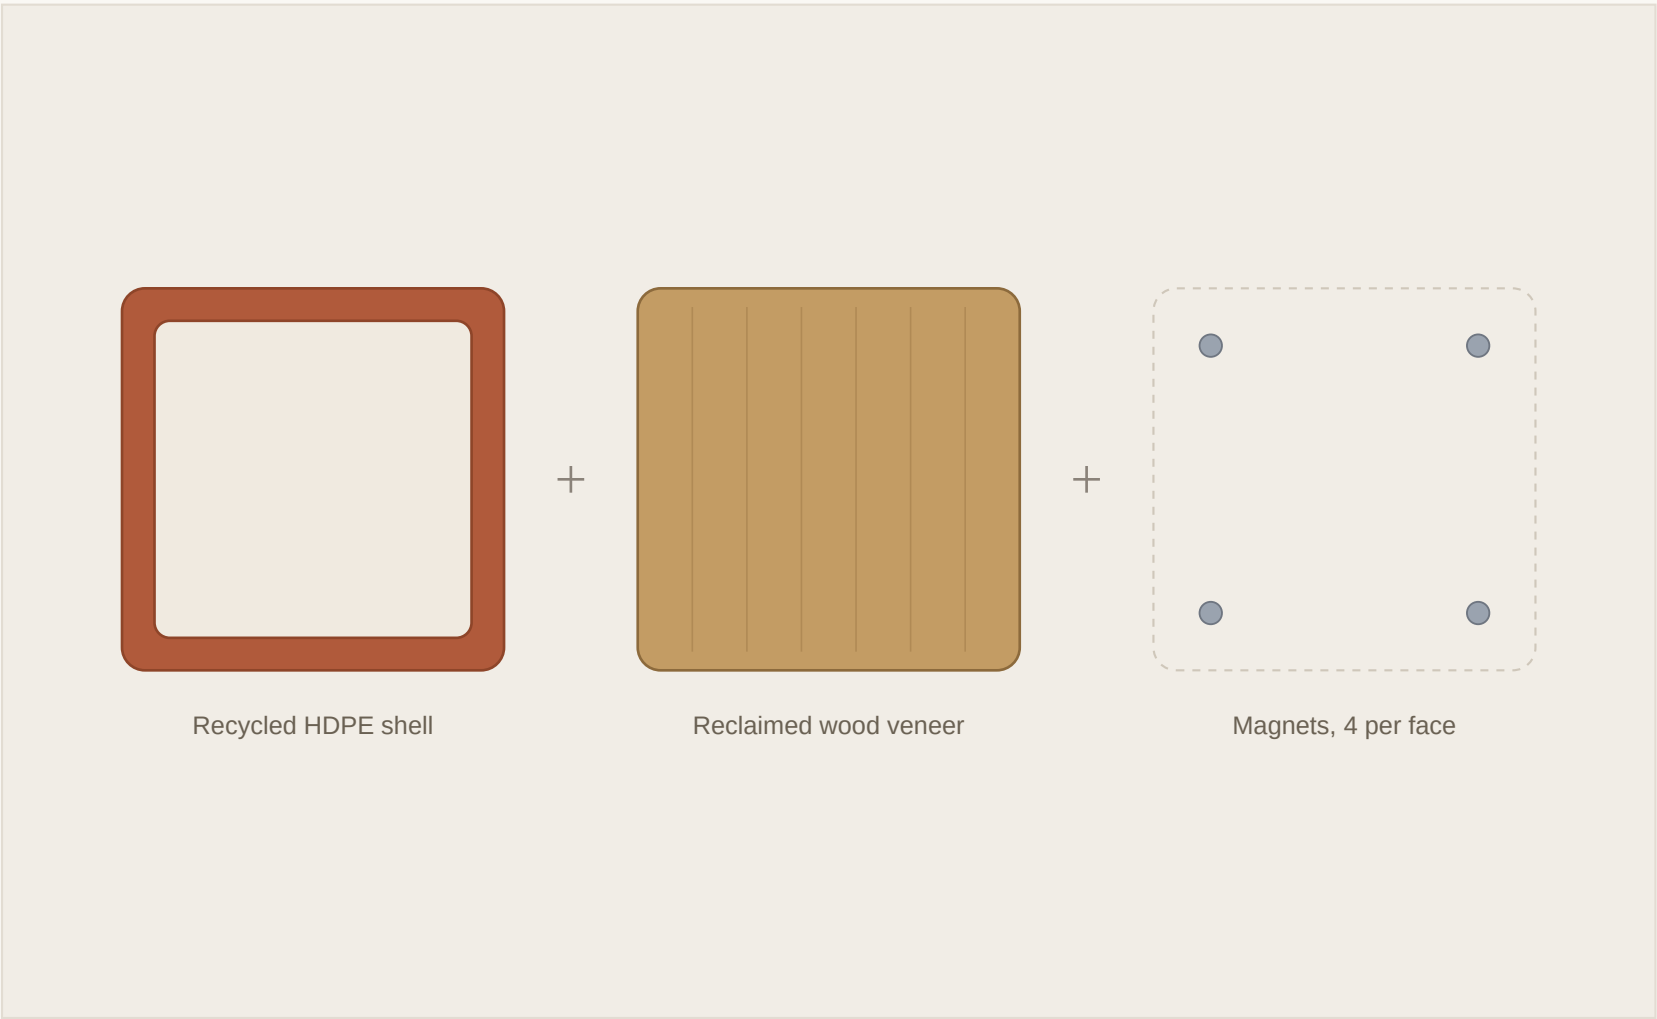

B **Dispersed**
Low table, stools and side tables

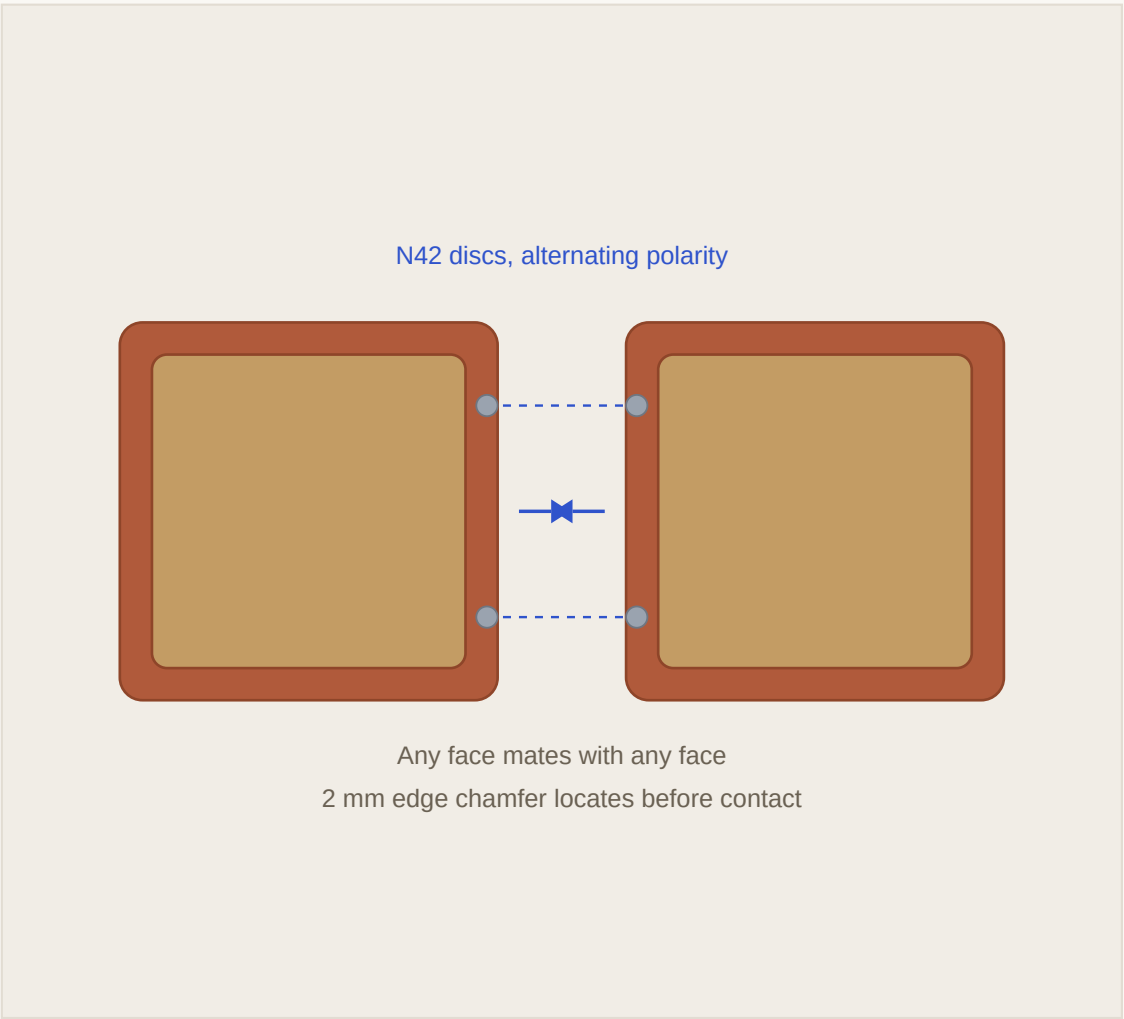

Construction

A rotationally moulded recycled HDPE shell, a reclaimed wood veneer insert and twenty-four magnets. No visible fixings, no tools, nothing to lose between moves.

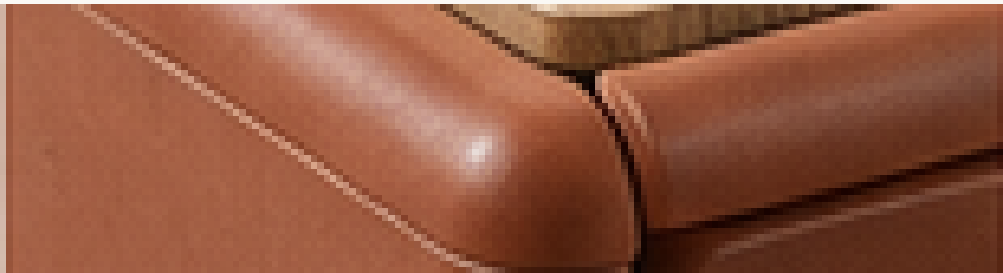

EXPLODED MODULE

MAGNETIC CONNECTION

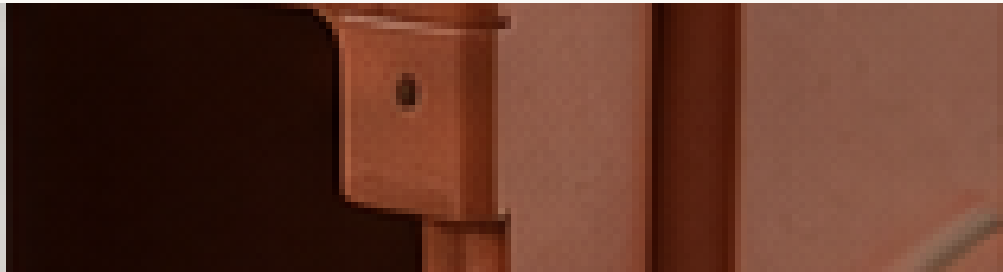

MATERIAL DETAIL

Concealed connector

Reclaimed wood veneer

Recycled HDPE shell

MODULE

400 x 400 x 400 mm

CORNER RADIUS

24 mm

SHELL

Recycled HDPE, 12 mm wall

INSERT

Reclaimed wood veneer, 6 mm

CONNECTORS

24 x N42 disc, 20 x 6 mm

MASS / LOAD

6.4 kg - rated 120 kg

Magnets are seated in blind pockets during moulding and capped by the shell wall, so no fastener is visible on any face. The 2 mm edge chamfer locates one module against the next before the magnets close the last few millimetres.

Kubik

Designed to move, adapt and reconfigure with you.
