

Verso

Wall bed, desk and storage in one cabinet

FURNITURE - SPACE SAVING SYSTEMS - 2026

The system

One wall. Three rooms.

A 420 mm deep cabinet holding a single bed, a fold-down desk and open storage. Each element folds back inside the same footprint, so the floor is handed back to the room the moment it is not in use.

THREE MODES, ONE FOOTPRINT

01 Storage

Closed. 420 mm from the wall

02 Desk

Front leaf down, 1100 x 600 mm

03 Bed

Single, 900 x 2000 mm

EVERY FACE

Adaptability

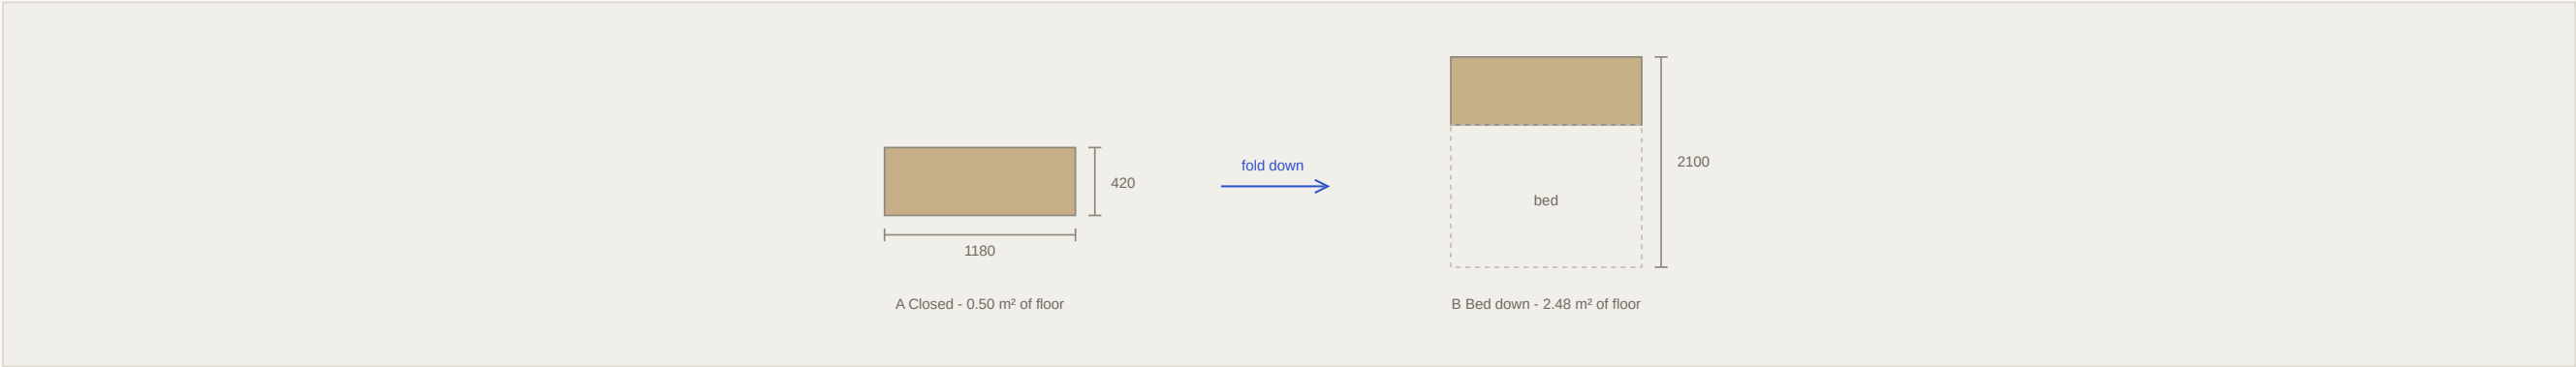

The same square metre, morning and night. Nothing is carried out of the room and nothing is stored elsewhere - the desk folds up, the bed folds away, and the wall returns to 420 mm.

A Day
Desk out, bed stowed behind the doors

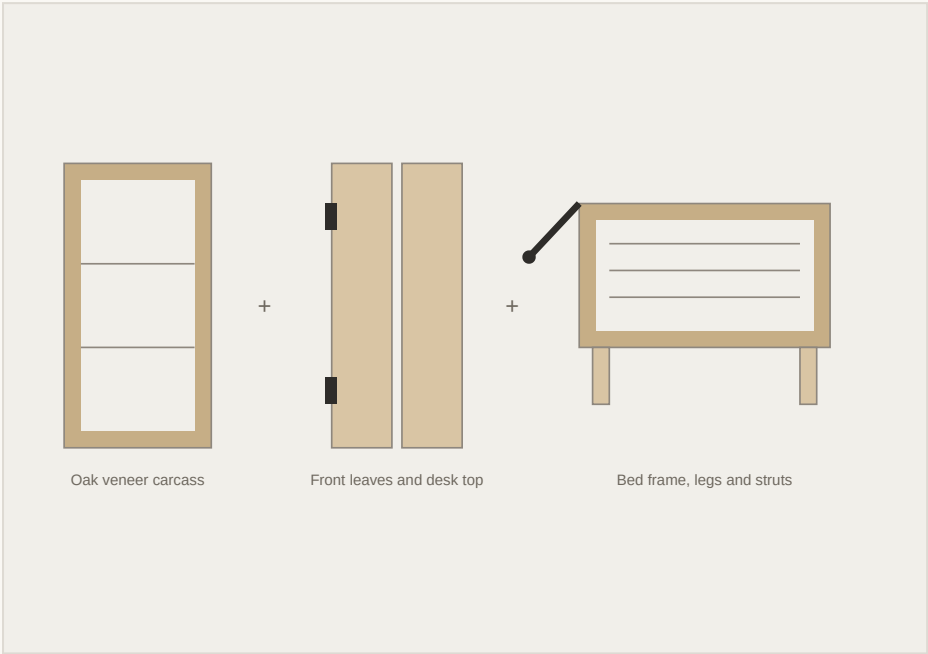

B Night
Bed down, desk folded flat

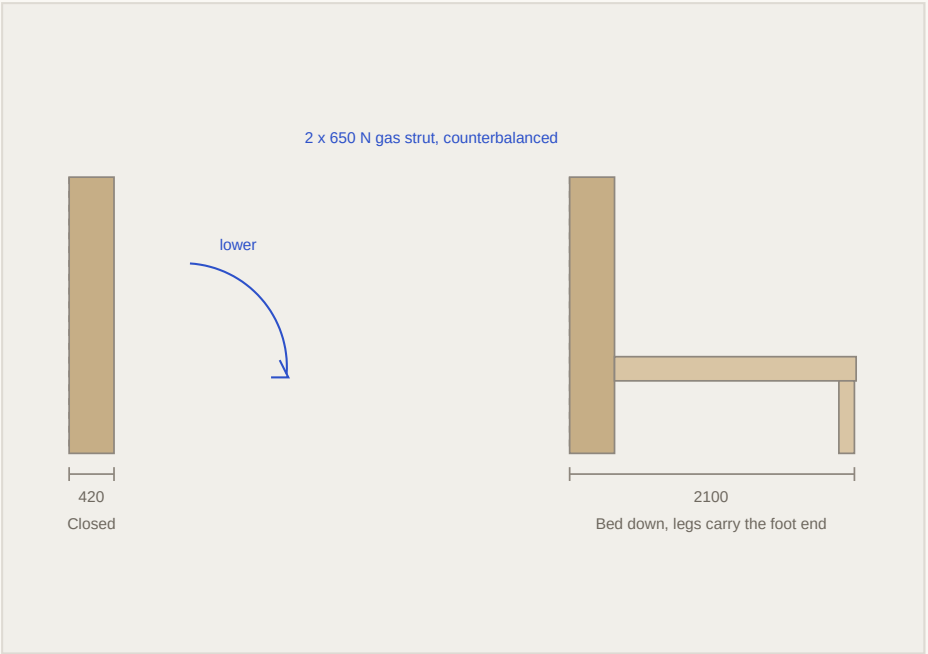

Construction

An oak-veneered carcass, a solid oak bed frame and a pair of counterbalanced gas struts. The bed is lowered with one hand, and after the four wall anchors are set, nothing else needs a tool.

EXPLODED UNIT

FOLD SEQUENCE

MATERIAL DETAIL

UNIT

1180 x 420 x 2180 mm

DEPTH

420 mm - 2100 mm open

CARCASS

Oak veneer on 19 mm panel

BED

900 x 2000 mm, 200 mm max

HARDWARE

Steel hinge, 2 gas struts

MASS / LOAD

96 kg - rated 150 kg

The bed frame carries its own legs, which swing down as the frame is lowered and take the load at the foot end. The cabinet is anchored to the wall at four points, so nothing bears on the floor while the unit is closed.

UN 2
STUDIO

Verso

Designed to fold away and give the room back.

Footprint	1180 x 420 mm
Modes	Storage / desk / bed
Mechanism	Counterbalanced gas strut
